PROJECTS

- **NBA Legends App** : In the NBA legends search section, you can explore information about various legendary basketball players who have made a significant impact on the sport. Whether you're interested in players from the early days of the NBA or more recent stars, this section provides you with a wealth of knowledge and insights.
- **Monthly Expense App** : Certainly! To help you keep track of your income and expenses, you can create a simple system where you enter your income, expenses, places of expenditure, amounts, and dates.
- **Movie App** : In this project, it is aimed to display cinema posters by using the tmdb api. There is a search feature according to the entered word.
- **Weather Forecast App** : In this project, you can see the current weather conditions by using an API key, and you can search according to the city entered.
